The annual commencement of Mrs. HALCOMBE's School, which, since the Presidential election in the Fall, has taken the name of the "Southside Institute," took place at the Institute building on Capitol Hill, on Tuesday of last week, and the Musical Soiree by the pupils the next evening at the same hour and place.

We were present by invitation, and had the pleasure of witnessing the graduation of the first classthe first fruits offered to the Southern Confederacy by the literary institutions of Tennessee since her secession on the Saturday immediately preceding. This was most gracefully and happily alluded to by This was most gracefully and happily alluded to by the reverend gentleman who delivered the Diplo mas, and is an honor that we feel assured is duly esteemed by the young ladies of the class.

The opening prayer was made by the Rev. Mr. Have—the address to the graduates, a most appro-Paris. Here is the article from the Moniteur:

Cortina brought but few men from Mexico, but some twenty-one joined him on this side, citizens of Guerrero, and

On the road, a short distance from Redmond's, they fell in contact with a portion of Cortina's men, but immedistely put them to flight. Immediately after, Lieutenant Calishan arrived, although the men and horses were very much wearied and fatigued, having traveled 65 miles in 12 hours, without resting. Capt. B. and Lieut. MONTGOMERY, 25th May, 1861. Gentlemen: —I receive with sincere pleasure the assurance that the State of Maryland sympathizes with the people of these States in their determined vindication of the right of self-government, and that the people of Maryland "are enlisted with their whole hearts on the side of reconciliation and

The Government of the Confederate States re-ceived with respect the suggestion of the State of of Maryland, "that there should be a general cessa-tion of hostilities now impending until the meeting of Congress in July next, in order said body may, if pussible, arrange for an adjustment of existing troubles, by means of negotiation, rather than the aword," but is at a loss how to reply, without a repetition of the language it has used on every pos-sible occasion that has presented itself since the es-tablishment of its independence.

tablishment of its independence.

In deference to the State of Maryland, however, it again asserts, in the most emphatic terms, that its sincere and earnest desire is for peace; that whilst the Government would readily entertain any prop-cartion from the Government of the United States tending to a peaceful solution of the pending difficulties, the recent attempts of this Government to enter into negotiations with that of the United States were attended with results which forbid any renewal of proposals from it to this Government.

If any further assurance of the desire of this Government for peace were necessary, it would be sufficient to observe that, being formed of a confederation of sovereign States, each acting and deciding for itself, the right of every other sovereign State to the same self action and self government is necessaparagraph by informing you the French Minister at rily acknowledged. Within the past few days there have been some transfers of bank and other stock owned by Northern parties to residents here, not in the way of actual sales, but as a cover to property which is considered jeopardized by the hostile re-lations existing between this Confederacy and the Abolition Government at Washington. A case in poin occurred yesterday where a pasty applied to the Mechanics and Traders' Bank to transfer certain shares of stock to himself under a power of attorney transmitted from New York. The President of the Bank entertaing serious doubts as to the propriety and legality of such a transfer, ad-dressed a communication to the Attorney-General of the State, soliciting his opinion in the premises. The answer of this officer is conclusive as to the illegality of the proceeding. He pronounces every negotiation, agreement or contract between a per-son domiciled within the Confederate States and an alien enemy, such as those must be deemed who are domiciled in the United States, to be absolutely null and void.
